

Olivier Peyroux is a sociologist. His work with child victims of trafficking notably from the Balkans has involved him with in-the-field consulting assignments on local and European child protection issues for national and international organisations including the OSCE and the European Union. His research has been widely published in scientific journals and he is regularly consulted by the media on trafficking and child protection issues. In addition to his non-profit commitments to children at risk, Peyroux is a legal expert on trafficking in human beings for the French judiciary.
