First part
Towards the end of 2011 the Federation of Associations for the Prevention of Child Mistreatment (FAPMI) began a journey that resulted in its incorporation in the International Society for the Prevention of Child Abuse and Neglect (ISPCAN), recognition of The Code as the Local Representative in Spain of the Code of Conduct for the Protection of Children and Adolescents Against Sexual Exploitation in Tourism and Travel and its joining to Red ECPAT International (End Child Prostitution, Child Pornography and Trafficking of Children for Sexual Purposes) as a National Group. The support for the work developed by the Federation and the Associations that have formed it since its foundation in 1990 offered by the independent international organizations that fight against mistreatment and sexual exploitation of children and adolescents offers us the challenge to respond to their commitment in a responsible, effective and efficient way. Therefore, the participation of FAPMI in this new scenario does not suggest a point of arrival, but rather a new beginning full of expectations that enhance opportunities that have a significant influence on the eradication of all forms of mistreatment of children and adolescents in Spain. Likewise, this recognition results complementary to the current proceedings of the Federation.
The present Plan of Action for the period of 2012-2013 opens a new stage in ECPAT Spain as its coordination will be assumed by FAPMI starting January 2012. This Plan provides a framework of the different activities that will be developed by FAPMI-ECPAT Spain over the next two years based on the following parameters:

- Consolidate the positioning of FAPMI-ECPAT Spain as a reference in our country in the fight against the Sexual Exploitation of Children and Adolescents, following the strategic guidelines defined by ECPAT International.

- Promote knowledge and awareness of the reality concerning this issue, in a way that permits the implementation of effective responses and policies adapted to this reality.

- Contribute to building an effective response against Child and Adolescent Sexual Exploitation from regulatory framework and international and European agreements.

- Strengthen the support to policies, objectives and measures defined by the Child Observatory through the III Plan of Action against the Sexual Exploitation of Children and Adolescents, effective monitoring of it and contribution to its improvement.

- Promote, strengthen and coordinate networks formed by all the agents active in prevention, detection and reporting and/or care to the victims and aggressors / exploiters at a local, regional and/or national level in both the private and public sector.

- Raise awareness of the whole society and the creation of a public opinion intransigent to any form of mistreatment against minors of age and –especially in this case- the Sexual Exploitation of Children and Adolescents.
The present Plan assumes these commitments and intends to go beyond the limits of the Federation and the Associations that form it, involving all organizations, entities, institutions and companies directly linked to this issue. Therefore, as the title of this Plan defines –“A proposal for action”- is an invitation to all social agents, politicians and professionals to join efforts with a common goal in this new context of collaboration.

Madrid, May of 2012.

Dr. Pedro Jaén Rincón
President of FAPMI-ECPAT Spain.

A PROPOSAL FOR ACTION
GLOSSARY

CC    Code of Conduct for the Protection of Children and Adolescents from Sexual Exploitation in Tourism and Travel

ECPAT Int.  ECPAT International.

CSEC:    Sexual Exploitation of Children and Adolescents.*

CSEC:    Commercial Sexual Exploitation of Children and Adolescents.*

CSEC-T:  Commercial Sexual Exploitation of Children and Adolescents in Tourism and Travel.

LCR    Local entities (national) that manage the Code of Conduct for the Protection of Children and Adolescents against Sexual Exploitation in Tourism and Trips in a country (Local Code Representative).

* In the original document, written in Spanish, they differentiate between: Sexual Exploitation of Children and Adolescents and Commercial Sexual Exploitation of Children and Adolescents. For translation purposes, both will be referred to as CSEC.
In addressing the issue of Sexual Exploitation of Children and Adolescents (later referred to as CSEC) it is necessary to develop strategies that address complementary lines of action and that permit a comprehensive approach to them.

- **Networking and inter-institutional coordination** through the participation in institutions, Networks and organizations, both national (which could be the Child Observatory and its Work Groups) and International, dedicated to the protection of children and the flight against the CSEC.

- **The social awareness of the problem of CSEC and the expansion of knowledge** about the reality of it in Spain with the objective of promoting the prevention of risk situations.

- **Training and support directed to specific professional groups about CSEC in all of its forms** through the provision of training for professionals linked to the world of children and adolescents, professionals in the tourism sector, educators and members of the educational community, families and others directly linked to children and teenagers.

- **Promoting youth participation** in order to integrate the experience and perspective of the youth and to develop appropriate measures for their protection.
 Promotion of the participation of the private business sector in the fight against CSEC in travel and tourism.

 Integration of the focus on Child Rights and the Convention of Child Rights as a fundamental axis.

 Prevention actions through the promotion and dissemination of ethical principles that inspire the development of tourism.

DOCUMENTS OF REFERENCE

Given the strategic character of the present Plan, it has been prepared taking into account—among others—the following references at a national, European and international level:
